THE INNOVATIVE FRUCTOMAT SYSTEM

MidMix III – the advancement of all PostMix systems!

The drink concentrate is mixed in a special mixing block completely sealed from air and is injected into fresh water while the finished drink is dispensed through a special hygienic and tempered glass tube. This tube is then immediately rinsed with fresh water: **no residues, no drying up and visible cleanliness!** Experience hygiene at a new level!

► **You save on logistics & transport**
Depending on the beverage or concentrate used, FRUCTOMAT saves between 80 % and 95 % on logistics and transport costs.

► **You save energy**
FRUCTOMAT only cools the required quantity and thus, saves up to 80 % of energy (compared to refrigerators or bottle/can machines).

► **You save CO2 emissions**
According to a university study each FRUCTOMAT saves the immense amount of up to 20,600kg CO2 per year/per location!

VISI M 4

THE NEW VISI! IT HAS ARRIVED TO CHANGE EVERYTHING!

With its **fully automated** and **intelligent refill system**, it is the **ultimate independent solution** for any buffet. Fresh and chilled juices are **dispensed through the carafe without any additional effort** for staff, while ensuring **maximum hygiene**.

WITH SUPERIOR TECHNOLOGY ABSOLUTELY EVERYTHING IS IN VIEW

Space for your own logo

WORLD'S
FIRST

INTEGRATED CARAFES:

Your guests see the juices in the closed beverage carafes, which creates a feeling of **reliability** and **trust** and thus **higher acceptance** of the beverage offer.

SMART A-REFILL:

The beverage carafes are **refilled fully automatically**, saving staff from extra work and worries during peak times. Thanks to the **smart technology**, there are **always fresh** and **chilled juices** available for your guests!

FLEXIBLE DECO:

For **optimal adaptation** to any **interior design** or **brand promotion**.

INTEGRATED DRIP TRAY
for easy cleaning

COMPACT & FLEXIBLE:

The **first** carafe dispenser **in the world** with **such a small space** requirement! For **flexible installations** thanks to the model variants and design options.

EASY TO CLEAN:

Automatic cleaning with each refill, the beverage carafes can be **easily removed by staff** and they are **suitable** for **cleaning** in the **dishwasher**.

HIGHER HYGIENE:

The juices in the high quality carafes are protected from dust, germs, virus droplets, etc. = generally safe from external contamination.

THE ADVANTAGES AT A GLANCE:

- **4 juices + chilled water** (Co² optional)
- Bag-in-Box concentrates **in the machine housing** or the **base cabinet**
- **Automatic cleaning** and high hygienic safety
- **Perfect mixing result** thanks to the patented MidMix® technology
- **Fully electronic control** for precise, consistent dosing
- **Easy handling** - simple refilling, programming, service and cleaning
- **Contactless** and electronic **"concentrate empty notification"** function
- **Drip tray with electronic monitoring** („FULL" and position control) - optional
- **Made-to-last! = Industrial quality** with robust materials
- **Decorative front panels**, scratch-resistant and **easy to replace**
