

## HYGIENE RODUCTS

Disinfection practical & fast with wipes approved according to EN 16615 and used as medical and hospital equipment. They are very effective for surface disinfection of e.g. line selection buttons and touch screens.

| Description                         | Art. Nr. |
|-------------------------------------|----------|
| Disinfection wipes in dispenser box | rein021  |
| Disinfection wipes refill pack      | rein022  |

Contactless operation with the touch pen. It replaces touching the user interface with a finger, thus eliminating the transmission of viruses and microbes in this way.

| Description                         | Art. Nr. |
|-------------------------------------|----------|
| Touch-Pen for contactless operation | fruz0037 |
